Profile

A Japanese major student at Nantong University, interested in photography, piano, language learning, and independent app development.

I enjoy turning personal observations into small digital products. My current work focuses on creative tools, everyday productivity, and personal reflection through app design.

Education

Nantong University

Nov 2017

Experience

Microsoft Windows Insider Program Participant

Nov 2017 – Present

WeChat Official Account — Operator

May 2020 – Present

Apps, tools, and practice

App Projects

Echo

A lightweight productivity app focused on helping users restart tasks through quick capture, short attempts, and gentle reflection. It explores how a small app can reduce the friction between intention and action.

Kisp

A personal app project currently in development. It focuses on turning small everyday needs into a simple, usable mobile experience.

Latent

A photography-oriented app for recording unfinished visual ideas, missed shots, and future shooting clues. It is designed as a personal map of photographic regrets, inspirations, and recurring visual patterns.

Skills

App Development

Swift · SwiftUI · iOS · Xcode

Tools

Git · GitHub · Figma · Lightroom · NX Studio

AI-assisted Workflow

ChatGPT / GPT-5.5 · Codex · Gemini 3.5 · DeepSeek V4
